Subject: Gratitude for Scholastic Materials Support to 80 Children with Disabilities

Sewhi Nigus Primary School, serving 1,350 learners in the Mekelle sub-city, extends heartfelt appreciation for your generous donation of scholastic materials to **80 children with disabilities**—specifically **34 children with intellectual disabilities** and **46 children with hearing impairments**. These essential supplies, including notebooks and pens have directly addressed critical gaps in their educational access.

Coming from extremely low-income families, these children face daily hardships in affording even basic learning tools. Many parents are subsistence farmers or daily laborers unable to cover school-related costs. Your intervention has removed this barrier, enabling full classroom participation and reducing feelings of exclusion.

The ripple effects of PIDO's support are transformative:

- **Academic Progress:** Students now complete assignments, follow lessons, and show improved grades in core subjects.
- **Lower Dropout Risk:** Equipped learners attend regularly, avoiding the cycle of absenteeism and eventual withdrawal.
- **Inclusive Environment:** Teachers report higher engagement, peer collaboration, and confidence among beneficiaries.

Ultimately, this contribution strengthens our pursuit of **quality, equitable education** as outlined in Ethiopia's Education Sector Development Programme and the UN Sustainable Development Goal 4.

The school community—teachers, parents, students, and local leaders—sincerely thanks PIDO for this compassionate act. Your commitment to vulnerable children inspires hope and reinforces community trust in collective action. We look forward to exploring future partnerships to sustain support for children with disabilities.

Thank you for investing in their future.
